

**Proactive Hardware Maintenance
Saves You Time & Money**

Proactive Hardware Maintenance Saves You Time & Money

The hardware as a service (HaaS) model essentially allows you to rent hardware for a flat monthly fee, rather than pay the high cost of purchasing and maintaining the hardware yourself. Any organisation will experience several benefits from adopting hardware as a service. However, rapidly growing small to medium-sized business will see the greatest benefit from the service, since the HaaS model is scalable and able to grow with an organisation from the garage all the way to their corporate headquarters.

At Royal IT, we provide proactive hardware maintenance to keep your IT environment up-to-date

with the most reliable and efficient hardware. By adopting our hardware as a service model and hardware maintenance services, you're able to keep your business up-to-speed with evolving IT innovations without sacrificing your own time. We will select, install, and maintain the right hardware for your business to keep you competitive and thriving – all for a flat monthly rate.

The Benefits of Hardware as a Service

Outdated IT equipment can be dangerous for your organisation, often resulting in security threats, hardware failures, data loss, and greater IT repair costs. By transitioning to hardware as a service, your organisation will be able to rely on

“ By adopting our hardware as a service model and hardware maintenance services, you're able to keep your business up-to-speed with evolving IT innovations without sacrificing your own time.”

state-of-the-art technology custom-suited to support your work processes – leading to increased efficiency, simpler workflows, less maintenance, and less troubleshooting. Isn't it time to gain the much needed peace of mind, knowing your hardware is running as smoothly as possible? At Royal IT, we want to help you focus on running your business – not your IT.

Reduce Capital Expenses

In this cutthroat economy, businesses must know how to strategically navigate the best cost-savings measures while determining which technologies work best for their unique needs. At Royal IT, we take the guesswork out of deciding which technology investments are most

valuable to your organisation. We'll sit with you to determine what solutions you need to carry out your goals, taking care of all the legwork along the way.

Leverage the Latest Technologies

Our hardware as a service model and hardware maintenance services allow your business to effortlessly stay current with the latest and greatest technologies. On top of that, you won't have to worry about purchasing and maintaining expensive hardware that will inevitably need to be replaced a few years down the line. By renting the hardware you need rather than buying it, you can easily scale your business upwards and plan for future growth.

“ At Royal IT, we want to help you focus on running your business – not your IT. ”

The Value of Our Partnership

With our hardware as a service solution, all of your hardware will get the attention, care, and maintenance it needs on a 24/7 basis. Rather than getting bogged down with having to constantly keep your technology upgraded and replaced, you can focus your time and resources on running your business.

We'll take the time to truly understand how your business functions and how it can be improved with the right technology solutions. If you're ready to maximise the potential of your IT investments, give us a call today. We'd love to sit down with you and chat over a cup of coffee!
